

Detailed Action

This office action is in response to the correspondence received on November 8, 2007.

Allowable Subject Matter

Claims 1-4, 6-15, 17-41 are allowed.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 42-56 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 42-56 fail to fall within a statutory category of invention. They are directed to the program itself, not a process occurring as a result of executing the program, a machine programmed to operate in accordance with the program nor a manufacture structurally and functionally interconnected with the program in a manner which enables the program to act as a computer component and realize its functionality. They're also clearly not directed to a composition of matter. Therefore, they're non-statutory under 35 USC 101.

Response to Arguments

Applicant's arguments with respect to claims 1-4, 6-15 and 17-56 have been considered but are moot in view of the new ground(s) of rejection.
